

Clearspan Face Hung Fin

Clearspan Face Hung Fin Balustrade

If it's getting too crowded in the house you may want to step out on the balcony with the fins. But all jokes aside the most exciting trend in balcony design right now is the fin balustrade. Rotating the balustrade 90° perhaps means using a few more balusters but the end result is a balustrade with texture and design substance that has your project standing out from all the others.

Features

- Contemporary fin baluster design with option for access route compliance
- Select from 3 standard fin types - 40x20mm, 40x40mm, 45° Angle
- Tough powdercoated finish in your choice of colour*
- High quality T5/T6 aluminium and stainless steel fasteners
- Available to suit a range of substrates
- Designed and made in New Zealand
