**Chimney Surrounds** 

## **Chimney Surrounds**

Creating a stylish finish to your roof is as easy as adding an aluminium chimney surround. Select from either an open framed design or 75mm elliptical louvre blade infills for that super contemporary look. Two spacing options and a large number of powder coat colour finishes provide additional design options to ensure continuity of design aesthetics.

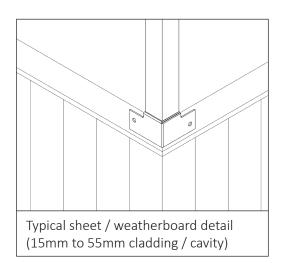

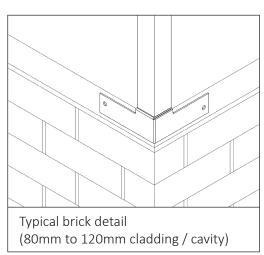

## Available as:

- Framed (up to 4.4m length/width\*)
- Louvred (up to 3.8m length/width\*)

Spectrum louvred chimney surrounds can be configured with either 65mm or 100mm blades facing in or out.

(\*) Requires mid support

- SURFACE FINISH Powdercoated (Dulux Duralloy or Duratec range) or anodised
- MATERIALS 6060 T5/T6 aluminium 316 Stainless steel
- NZBC COMPLIANCE B1 (Structure) & B2 (Durability)
- COMPLIANCE SPECIFICATION Maximum wind speed = 55 m/s (Extra high wind zone)
