

Standard Powder Coat Colours

Spectrum have a range of approx. 25 'standard' Duralloy colours which are commonly used in the industry. If not mentioned otherwise these colours are included in our standard pricing. Many standard colours are coloursteel colours and most are matt versions of the colour. Other non-standard colours including the Dulux Duratec range are possible, but extra charges may apply. Matt versions of colours are typically used for Architectural metalwork items such as balustrading & louvres.
